

Teodor Popa
Financial Manager
Brașov Water Company
Member of the IWA Board

A double graduate in engineering (1991) and economics (1997), he has been involved since 1995 in internationally funded projects. He participated in the reform of the Romanian water sector: the process of regionalization and restructuring of the company: institutional transformation, tariff strategy and implementation of concession contracts.

He is author of the various papers presented on the globe and an expert in the international projects of the European Bank for Reconstruction and Development (EBRD) and the World Bank on water sector reform, tariff policy, management and aggregation of companies, etc.

He is currently a member of the board of the International Water Association (IWA), president of the Specialist Group on Economics and Development of the Romanian Water Association (ARA), vice president of the Specialist Group on Statistics and Economics of the International Water Association (IWA), head of the Tariffs and Finance Working Group.
