

Joaquim Barreiros
Board member
Portuguese Regulation
Authority of Water and Waste
Services

With a degree in Economics, an MBA and 64 years of age, Joaquim Barreiros has a long experience in the industrial, academic and consultancy environments.

As CFO and Controller of relevant Portuguese industrial groups he gained management experience being responsible for management control of their foreigner branches over Europe. In the academic and consultancy fields he dealt with areas of corporate strategy, management control and management accounting.

He is an Invited Professor at the Faculty of Economics of University of Porto and responsible for post-graduate programmes and others executive courses at the PBS - Porto Business School where he lectured in the MBA and several in-company and others executive programmes.

Since 2020 he is a member of the board of the Portuguese Regulation Authority of Water and Waste Services (ERSAR).
